ARTICLE INFO

Article history:

Available online 5 August 2019

The authors regret that there are some algebraic errors in this paper:

- The second line of Eqs. (25) and (26) is missing a factor of n .
- The fourth line of Eq. (25) is incorrect; it should be

$$- \left[\frac{n(n-1)}{2} \tilde{G}_n(\mathbf{t}; \mathbf{x}) + \sum_{l=1}^L \frac{n\theta_l}{2} \sum_{\substack{A \subseteq [L]: \\ l \in A}} \sum_{\mathbf{i} \in E_A} t_i^A x_i^A \tilde{G}_{n-1}(\mathbf{t}; \mathbf{x}) + \sum_{l=1}^{L-1} \frac{n\rho_l}{2} \sum_{\substack{A \subseteq [L]: \\ A_{\leq l} \neq \emptyset \neq A_{>l}}} \sum_{\mathbf{i} \in E_A} t_i^A x_i^A \tilde{G}_{n-1}(\mathbf{t}; \mathbf{x}) \right].$$

- The fourth line of Eqs. (26) and (27) is incorrect; it should be

$$- \left[\frac{n(n-1)}{2} + \sum_{l=1}^L \frac{\theta_l}{2} \sum_{\substack{A \subseteq [L]: \\ l \in A}} n^A + \sum_{l=1}^{L-1} \frac{\rho_l}{2} \sum_{\substack{A \subseteq [L]: \\ A_{\leq l} \neq \emptyset \neq A_{>l}}} n^A \right] \tilde{S}(\mathbf{x}, n).$$

- The final term in square brackets in (B.3) and (B.4) is missing a factor of $\frac{1}{2}$.

The rest of the paper is unaffected.

The authors would like to apologise for any inconvenience caused, and to acknowledge Martina Favero for pointing out some of these issues.
